

Pupil premium strategy statement

Review of Academic Year 2022-2023

This statement details our school's use of pupil premium (and recovery premium for the 2022 to 2023 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

School overview

Detail	Data
School name	Swanland Primary School
Number of pupils in school	432
Proportion (%) of pupil premium eligible pupils	5.5% (24)
Academic year/years that our current pupil premium strategy plan covers	2021-2024
Date this statement was published	September 2023
Date on which it will be reviewed	September 2024
Statement authorised by	Headteacher
Pupil premium lead	Elizabeth Hobbs and Morag Russell
Governor / Trustee lead	Chris Wainman

Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£38,280
Recovery premium funding allocation this academic year	£3480
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	0
Total budget for this academic year If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£41,760

Part A: Pupil premium strategy plan

Statement of intent

At Swanland Primary School our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve their potential across all areas of the curriculum. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve their goals, including progress for those who are already high attainers and to support mental health and wellbeing.

We consider the challenges faced by disadvantaged pupils and the wide range of barriers that may impact on their learning. We also recognise the challenges faced during the pandemic and the impact that it had on learning and wellbeing. We recognise that the barriers to learning are varied, and our aim is that our response will benefit all pupils at our school and not just our disadvantaged.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged and vulnerable pupils require the most support. Research tells us that this has the greatest impact on closing the disadvantaged gap and benefits all pupils, not just the disadvantaged pupils. High quality CPD and support and coaching for all teaching staff is vital in order to fulfil this approach.

Alongside high-quality teaching, pupils are taught the metacognition strategies. We want our pupils to acquire the skills and attitude to grow as learners for life, to enable them to succeed in and beyond Swanland Primary School.

We ensure that all teaching staff are involved in the collection and analysis of school data, so that needs are identified early, and support put in place quickly across the curriculum. All staff are aware of who their disadvantaged pupils are and take time to identify any barriers to learning so that they can act early and put support in place to support needs. Termly pupil progress meetings take place to analyse and track progress.

Our strategy is also integral to wider school plans for education recovery, notably in its targeted support for pupils whose education has been worst affected, including nondisadvantaged pupils.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel.

To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they are set
- act early to intervene at the point need is identified using researched and appropriate interventions for maximum impact.

- regularly monitor and review individual assessments and the impact of high quality teaching and specific interventions, making changes when necessary to improve progress.
- ensure teaching staff and support staff are highly trained
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Gaps in vocabulary and lack of ability to use language effectively.
2	Consistency in provision of high-quality teaching, particularly in reading.
3	Social and emotional issues for many pupils, notably due to lack of social interactions and enrichment opportunities during school closure.
4	Lack of resilience and self-motivation which are impacting on progress within core subjects.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
There will be no gap in vocabulary (understanding or usage) between children of a similar age/ability, regardless of their background.	<p>Assessments and observations indicate significantly improved oral language among disadvantaged pupils. This is evident in sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment.</p> <p>Staff will promote a language rich environment reflective of growing vocabulary used by the children. This will be evident in classroom displays and through work produced in class.</p>

<p>Subject leaders will be confident that their curriculum provision will ensure clear progressions in knowledge for all pupils, including those who are disadvantaged.</p>	<p>All children will have access to a high-quality curriculum.</p> <p>Pupil voice will reflect retained knowledge and progression in knowledge for all curriculum areas will be evident.</p>
<p>Staff will have an awareness of individual pupils' barriers and will develop effective teaching strategies to support pupils.</p> <p>There will be improved reading attainment among disadvantaged pupils.</p>	<p>Staff will have high expectations for all pupils and will discuss progress levels of all disadvantaged pupils at termly pupil progress checks.</p> <p>Year 1 and 2 phonics screening checks and end of Key stage reading outcomes will indicate that disadvantaged pupils' outcomes in reading are in line with all pupils from their individual starting points.</p> <p>KS2 reading outcomes will show that the progress of disadvantaged pupils is positive and in line with non-disadvantaged pupils from their KS1 attainment.</p>
<p>Emotional wellbeing of all pupils will be supported.</p> <p>There will be an improved engagement in enrichment opportunities, particularly among disadvantaged pupils.</p>	<p>Sustained high levels of wellbeing will be demonstrated by qualitative data from pupil voice, student and parent surveys and teacher observations.</p> <p>If appropriate, pupils will actively engage in ELSA sessions by trained ELSAs in school and pupil scaling and teacher scaling will show raised self-esteem and growth mindset. Teacher assessment and learning walks will see increased concentration in lessons due to support received for emotional needs.</p> <p>There will be a range of enrichment activities offered for all aged children in school and there will be a significant increase in participation in enrichment activities, particularly among disadvantaged pupils. This will include extra-curricular clubs and school trips.</p>

Pupils will develop a greater resilience through their learning behaviours. All children, regardless of ability or background, will have the same high levels of aspiration enabling them to aim towards their goals in the future.	Sustained learning behaviours and attitudes towards learning will lead to improvements in achievement data and evidence of good progress towards age expected attainment. There will be no gap in data between disadvantaged and non-disadvantaged pupils. Pupil voice will reflect high aspirations.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £21,000

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Research and purchase of standardised diagnostic assessments by assessment lead, supported by Literacy and Mathematics leads.</p> <p>Training for staff to ensure assessments are interpreted and administered correctly.</p> <p>Staff will use assessments to identify gaps and underachievement as well as showing progress.</p>	<p>Standardised tests can provide reliable insights into the specific strengths and weaknesses of each pupil to help ensure they receive the correct additional support through interventions or teacher instruction:</p> <p>Staff to use assessments to identify gaps in learning and support teacher assessments. Information will be used to also identify whole school priorities in reading and maths, leading to CPD if appropriate.</p>	1, 2, 4

Continued CPD for all teachers and support staff to ensure high quality teaching that improves the knowledge, skills and achievement of all pupils.	Evidence from EEF toolkit: Effective professional development; <i>...a growing consensus that promoting effective professional development plays a crucial role in improving classroom practice and pupil outcomes,</i>	2
Purchase of a DfE validated Systematic Synthetic Phonics programme to secure stronger phonics teaching for all pupils. Training for all staff in the use of Little Wandle phonics scheme. Staff will implement and embed the scheme.	EEF research outlines the importance of improving Literacy by improving pupils' language capabilities, developing fluent reading capabilities, teaching reading and writing strategies through modelled and supported practice. There is a strong evidence base that suggests oral language interventions,	1, 2
Embed the principles of Talk for Writing across the school.	including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading.	
Provide subject leaders adequate time to carry out duties effectively	Leadership capacity will ensure dedicated time can be allocated to improve teaching and learning and development of the curriculum	1, 2 ,3, 4

Targeted academic support (for example, tutoring, one-to-one support structured interventions)

Budgeted cost: £10,500

Activity	Evidence that supports this approach	Challenge number(s) addressed
Targeted 'catch-up' interventions delivered by teacher/teaching assistant. E.g. Keep up Little Wandle reading groups	Research shows that regular small group and 1:1 reading is important for fluency. EEF research outlines the importance of improving Literacy by improving pupils' language capabilities, developing fluent reading capabilities, teaching reading and writing strategies through modelled and supported practice.	1, 2, 3

Engaging with the School led Tutoring Programme. A significant proportion of the pupils who receive tutoring will be disadvantaged, including those who are high attainers. (2021/22)	<p>Tuition targeted at specific needs and knowledge gaps can be an effective method to support low attaining pupils or those falling behind, both one-to-one and in small groups:</p> <p>A proportion of disadvantaged pupils have been identified as falling behind in core subjects. A 15 week programme for these pupils, 1:1, will enable these pupils to close the gap.</p>	1, 2
ELSA programmes to be delivered to those identified children with priority to disadvantaged children.	<p>EEF research into social and emotional learning establishes the importance of reinforcing behaviours into whole school initiatives which will be one main aim of the ELSA role.</p> <p>EF research recommends planning and monitoring SEL support to improve Social and Emotional learning.</p>	3, 4

Wider strategies (for example, related to attendance, behaviour, wellbeing)

Budgeted cost: £10,500

Activity	Evidence that supports this approach	Challenge number(s) addressed
Whole staff training on safeguarding, behaviour management and antibullying approaches with the aim of developing our school ethos and further improving consistency across school.	Both targeted interventions and universal approaches can have positive overall effects:	3, 4
Purchase Boxall profile to measure pupil wellbeing.	Measuring impact of interventions and wider strategies will lead to improved progress and wellbeing.	3, 4

<p>Provide equal access to extracurricular activities, residential and educational visits.</p> <p>Implement a range of lunchtime extra-curricular clubs for all ages.</p>	<p>Research states that children should have access to a wide range of activities within and beyond the curriculum to enhance their cultural capital. Experiences outside the school building are important to all pupils, especially disadvantaged pupils to develop their understanding of the world. To fund part or all of these experiences will help the pupils to build self-esteem, knowledge, confidence and independence.</p>	3, 4
<p>Implement peer mentoring across the school. Peers will support with social activities and give academic support.</p>	<p>EEF evidence suggests that some pupils from disadvantaged backgrounds show low engagement with or have low expectations of schooling. Mentoring interventions may be more beneficial for these pupils, as the development of trusting relationships with an adult or older peer can provide a different source of support.</p>	1, 2, 3, 4

Total budgeted cost: £42,000

Part B: Review of outcomes in the previous academic year

Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

We have analysed the performance of our school's disadvantaged pupils during the 2022/23 academic year using key stage 1 and 2 performance data, phonics check results and our own internal assessments. We have reviewed the outcomes and success criteria written in our plan.

There will be no gap in vocabulary (understanding or usage) between children of a similar age/ability, regardless of their background.

Teachers are embedding the principles of Talk for Write in their literacy lessons and are displaying key text vocabulary in their classrooms with the expectation that children embed this vocabulary in their written work. The introduction of knowledge organisers for every year group each term, which are shared with parents, has promoted the use of key vocabulary and allowed all pupils to develop their understanding of key words and revisit and revise as part of teacher assessment tasks. To build on progress, all teaching staff have been asked to promote 'word of the week' in lessons to increase the range of vocabulary used in speaking and listening tasks and written tasks.

Subject leaders will be confident that their curriculum provision will ensure clear progressions in knowledge for all pupils, including those who are disadvantaged.

All subject leaders have been given designated time throughout the year to look at their curriculum and ensure that progression in knowledge between year groups is clearly planned. This is reflected in year group knowledge organisers that are available across the year and are published on the school website. Learning walks and book scrutinise, prioritising the review of those classed as disadvantaged, have taken place throughout the year. Prior knowledge of subject knowledge is checked during learning walks and advice is fed back to teachers and subject leaders in order for them to refine their curriculums. Going forward, additional subject leader time will be given to staff and designated staff meeting time has been prioritised in order to ensure all staff are confident that the curriculum provision is showing clear progression in knowledge for all pupils.

Staff will have an awareness of individual pupils' barriers and will develop effective teaching strategies to support pupils.

Every teacher attends pupil progress meetings with members of the senior leadership team once a term. At these meetings teachers talk about any barriers to learning faced by pupils. Actions are put in place at this meeting, or prior to the meeting, to support the children in the best way possible. Recent CPD training by designated members of staff has focussed on identification of barriers/challenges to learning and this will be cascaded to staff to help them identify specific needs further.

There will be improved reading attainment among disadvantaged pupils.

End of Key stage assessment data shows that there are still gaps in progress between disadvantaged pupils and non-disadvantaged children. Due to small cohorts of disadvantaged children across the year groups, it is difficult to make assumptions due to the reliability of the data. We still recognise that further work is needed to close the attainment gap. Our investment in Little Wandle has started to show improvements in reading ability, for example 100% of Year 2 disadvantaged children passed the phonics

screening test in Summer 2023. The school is prioritising reading skills, as shown in the school development plan, to develop reading skills across the year groups. All teaching staff have taken part in reading skills CPD to support them with refining their reading skills lessons and ways to promote reading within the school. Progress will be analysed at the end of the autumn term.

Emotional wellbeing of all pupils will be supported.

Two pastoral support assistants are now trained to deliver the ELSA programme. Pupil premium funding spent on ELSA CPD has helped to support pupils' emotional development and ensure that they develop key learning behaviours (resilience) and the ability to become independent. We recognised that we had growing numbers of children who were in need of emotional support and not always enough time for our pastoral support assistants to work with all children in need of support. An opportunity has now arisen for a Pets Therapy dog to visit the school half a day a week to support the emotional wellbeing of more pupils.

There will be an improved engagement in enrichment opportunities, particularly among disadvantaged pupils.

Some of our Pupil premium grant has been used to ensure that as many of our disadvantaged children access residentials and wider enrichment opportunities as possible. A range of clubs are now taking place at lunchtimes and after school to give children the opportunities to engage in enrichment activities. We have a much higher percentage of children taking up the enrichment activities. We recognise that there are still some clubs that don't cater for specific age groups, which limits options for some of our disadvantaged pupils. Going forward, we aim to ensure that children have a range of activities that they can choose from and we aim to analyse their attendance at out of school activities.

Pupils will develop a greater resilience through their learning behaviours. All children, regardless of ability or background, will have the same high levels of aspiration enabling them to aim towards their goals in the future.

Peer mentoring across the school was piloted and positive results were observed. We plan to provide a more structured approach going forward so that that we can target specific children's needs. This will involve investing time in training children to support others.

Externally provided programmes

Programme	Provider
Little Wandle Phonics	Little Wandle

Service Pupil Premium Funding (optional)

For schools that receive this funding, you may wish to provide the following information: How our service pupil premium allocation was spent last academic year
We have very small numbers of pupils accessing the Service Pupil Premium Funding and – as such – are unable to give specific details here. We use the funding to support the provision of pastoral programmes and extra-curricular clubs.

The impact of that spending on service pupil premium eligible pupils
The contribution the SPP added to our budget allows us to develop and implement our wellbeing initiatives in school. The spending has improved our provision of pastoral programmes which the specific children benefit from.
