Dear Parent/Carer

Improving School Communications with the ScholarPack Parents App

Communicating with parents is an important part of what we do, making sure you get the correct information about school news, activities and things that really matter is something we care about.

We currently use a system called ScholarPack and part of the software allows for better communication between home and School with the ScholarPack Parents App meaning you can pick up school messages instantly. Using the ScholarPack Parents App will also save the school money, as all messages (unlike texts) will be sent free of charge from the school.

Parent/Carers will need to download the free ScholarPack Parents App which is available by searching for 'ScholarPack Parents' in your App store. **We encourage you to download the ScholarPack Parents App today.** After the Easter Holidays, we will send you a link-up code (which will be valid for 60 days) which you will need to register – open the app on your phone, click 'let's get started', you will be prompted to enter the link-up code and your mobile number.

This App will be beneficial to you because you can:

- use a free mobile app on Android and iOS to pick up school messages instantly
- have an account simply for school messages (away from your busy email inbox!)
- see up-to-date information about your child's attendance
- see your contact details
- see which permissions you have granted for your child
- see dietary and medical details

If you need any additional information please [click here](#) or watch this youtube video – [click here](#)

Thank you for your continued support.

Yours sincerely

Hannah Stephenson
Head Teacher
