The current building was built in 1803 on the site of the original chapel building of 1694 adjoining the 1694 school building. The attractive stone staircase to the gallery was originally outside. Two porches were added in 1840 and the two adjoining vestries in 1854, the north vestry being built on the site of the schoolroom. There were further extensions in 1989/1990 and the balcony was refurbished in 2000/2001.
